

# THE MAGIC MUMBLE JUMBLE – BIO 2027

What started as a street music collective of jazz students touring around in an old fire truck has long grown into one of the most extraordinary live bands around: today, The Magic Mumble Jumble fill concert halls — yet still feel like the kind of band that sits down with fans at the merch stand after the show, sharing stories and celebrating together late into the night.

Over the past years, the Dutch eight-piece ensemble has built a strong and loyal community step by step — not through trends or grand productions, but through genuine connection, unstoppable live energy, and songs that bring people together. With millions of streams, sold-out tours, and a constantly growing fanbase, The Magic Mumble Jumble have become one of the most exciting independent live acts around while still being considered a true hidden gem.

Ever since the success of “Don’t Forget,” it became clear that this band carries something special: hope without cliché, warmth without pathos, and a contagious joy for life. Somewhere between folk, pop, brass, indie, and a healthy amount of chaos, they create a sound that can feel both euphoric and intimate — like a spontaneous street festival with open arms.

But the real magic happens live.

Anyone who has experienced a The Magic Mumble Jumble concert quickly realizes: this is about more than music. It’s about community. Wildly dancing crowds, trombone solos performed on the shoulders of fellow band members, singalong moments with thousands of voices — and the feeling of being part of something deeply and extraordinarily human for two hours.

Despite growing, sold-out venues and rising attention, the band has remained remarkably approachable. Maybe that is exactly why their concerts no longer feel like mere shows, but rather places people keep coming back to.

With their new “Come Together Tour,” The Magic Mumble Jumble open the next chapter in 2027 — bigger than ever, yet driven by the very same idea they started with:

Music is meant to bring people together

### **Come Together Tour 2027**

München	Backstage	12.02.2027
